The tour around the Lake Constance continues. Today we spend the night in a very small town located on the shore of the lake, **Eschenz**. Our stay will be in a house with a lot of history behind, with more than 500 years. The new owners are preparing it mixing **old stuff** with more **modern**. The mixture is very interesting.

Fish seek quiet places to spend the night

At home we happened to meet with a very nice French couple making a bike tour of the lake. Admirable.

Rest with beer and drink on the terrace of the house.
A jug of water flavored with mint completes the package.
