

## **The Devil's Bridge**

Between **Andermatt** and **Göschenen** you can find the terrible **passage of Gotthard** and the **Devil's Bridge**. According to **legend**, it was so hard to build the bridge to pass the dreaded river Reuss that it was entrusted to the devil. The only condition was that he was the first to cross it in but a pastor gave him a goat with such bad luck for the devil the animal crossed before him. Angry for the offense he decided to throw a rock to break the bridge. An old lady drew a cross in the rock so the devil might not launch it.

**Panorama**

The village has wonderful views over the valley. That day it seems there was a lot of traffic on the highway. But not for us because we were going along a normal road full of riots and an impressive tunnel.
